The Anywhere Pendant and Anywhere Watch offer simple, critical communication at the press of a button.

Anywhere **Watch**

All the life-saving features of a personal alarm, disguised as a stylish 4G digital watch. Featuring a discreet SOS button, fall detection, and a direct voice link to our 24/7 team.

Many people feel self-conscious wearing a traditional pendant alarm. The Anywhere Watch solves this by packing advanced GPS, fall detection, and two-way voice technology into a device that looks and functions just like a normal digital watch. Maintain your independence with dignity.

- **Discreet SOS Button -** A dedicated physical button on the front of the watch instantly connects you to our UK monitoring team.
- **Automatic Fall Detection** - Built-in sensors can be configured to detect heavy falls and automatically trigger an alert without pressing anything.
- **Clear Digital Display** - Functions as a normal watch with a bright, easy-to-read digital screen showing the time, date, and battery level.
- **Works Everywhere** - Unlike traditional alarms tied to a landline, it uses our Anywhere SIM to keep you protected at home and outdoors. Our Anywhere SIM seamlessly roams over all UK mobile networks and our devices are 4G to provide longevity in the future.
- **24/7 UK Monitoring Centre** - When you press the button, you're never alone. Our highly trained, compassionate team is ready to answer your call day or night, 365 days a year.

Technical Specifications
Watch Face - 47mm x 41mm x 15mm
Weight - 44g (including strap)
Battery Life - 2-3 days standard use
IP67 (Shower & Bath safe)
4G with 2G fallback (Multi-network)

What's in the box?
1x Anywhere Watch
1x Adjustable Strap
1x Magnetic Charging Cable
1x UK Power Adapter
1x Simple Setup Guide

Anywhere **Pendant**

The Anywhere Care Pendant is a simple, lightweight 4G personal alarm, that protects you everywhere you go. Featuring automatic fall detection, GPS tracking, and a direct line to our 24/7 UK monitoring team.

The Pendant is designed for people who want to maintain their independence without sacrificing safety. Whether you're worried about slips in the bathroom, falls in the garden, or feeling unwell while out shopping, this pendant ensures that help is only ever a button press—or an automatic fall detection—away.

- **Automatic Fall Detection** - Built-in sensors detect heavy falls and automatically call for help, even if you can't press the button.
- **Works Everywhere** - Unlike traditional alarms tied to a landline, it uses our Anywhere SIM to keep you protected at home and outdoors. Our Anywhere SIM seamlessly roams over all 4 UK mobile networks and our devices are 4G to provide longevity in the future.
- **Two-Way Voice** - Speak directly with our UK-based response team through the pendant's crystal-clear speaker and microphone.
- **100% Showerproof** - Fully water-resistant (IP67), so you can wear it in the shower or bath where slips are most common.
- **24/7 UK Monitoring Centre** - When you press the button, you're never alone. Our highly trained, compassionate team is ready to answer your call day or night, 365 days a year.
