

St Josephs

Tring . Hertfordshire

Purpose built in 1993, St Josephs is found in the idyllic country town of Tring in Hertfordshire, providing care for those needs that arise from both old age and dementia.

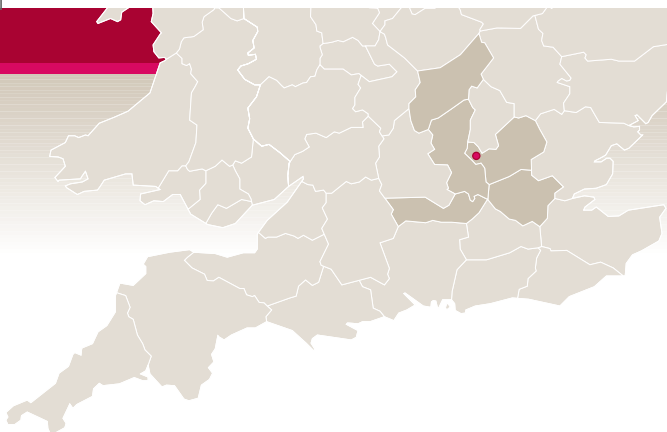

An already established care home, St Josephs was one of the original care homes to identify the need for specialised, specific units, built to cater for the specific needs of residents with dementia. It was with this in mind that the purpose built, single storey courtyard style unit and secure walking area were created.

Residents have a choice of single or companion en suite bedrooms, all of which may be personalised with their own possessions to help create more familiar surroundings.

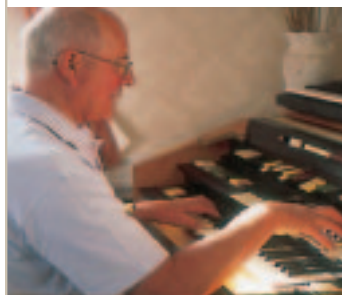

Residents may take meals in our splendid dining room or, if they wish, in the privacy of their own room. Residents living in the specialist unit may take their meals in the small lounge/diner. Our resident cooks prepare a varied menu of appetising home cooked meals, taking into account nutritional balance and any specific dietary requirements or individual preferences. Morning coffee, afternoon tea and snacks are available throughout the day.

At St Josephs life is for living and a full and active lifestyle is encouraged. Our Activities Organiser arranges a varied social calendar of activities and entertainment, including trips to places of interest.
