

Extra Care Services: The Cuttings

The Cuttings is a multi-million-pound, purpose-built development built in 2018, providing independent living with 24-hour care support. It houses 55 fully equipped one and two-bedroom apartments. There is also a community hub which includes a well-being suite, spa, restaurant and multi-functional rooms.

Tenants maintain their privacy and independence, but our extra care team are available 24 hours a day to deliver personal care where needed. We can also cater for individual needs, including specialist care for those living with dementia.

The commercial kitchen accommodates the growing demand for our hot food delivery service, with the capacity to prepare up to 1000 hot meals per week.

As well as safe, comfortable housing, care in the home and delicious fresh meals, we also arrange a variety of activities. These are completely optional and we try to create a good balance so that tenants have plenty to choose from.

- Fully equipped apartments
- Independent living
- 24-hour access to care
- Security and privacy
- Specialist dementia care
- Community hub
- Excellent catering provision
- Activity areas and fabulous outdoor gardens

If you would like further information about our exceptional Extra Care Service please get in touch with our friendly team.
