helping you live your life the way you want

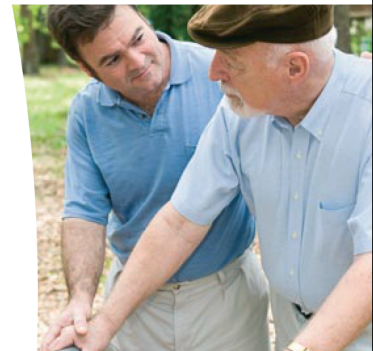

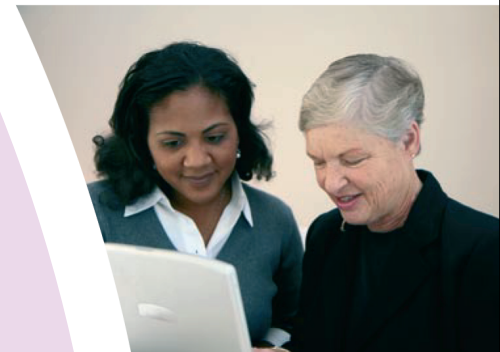

Have you been allocated a budget for care services at home and are now looking for a Service Provider you can trust? Talk to us at PerCurra and you'll immediately discover why we have a reputation for excellence.

Even if you have decided to recruit your own Personal Assistant (PA) we can help by providing temporary cover during their holidays, if they are ill or whenever you need an extra pair of hands.

Our services range from Total Care Packages through to Interim Support. You can rely on us to arrange everything, exactly to your requirements.

We know that each person is different so we really listen to what you want. A member of our dedicated team is carefully matched to you and visits are timed to fit in with your lifestyle. No other company puts clients right at the heart of the care process in the way we do.

We are constantly building individual packages that enable our clients to enjoy life and we do it exceptionally well.
