HEALTH CARE

We provide basic healthcare services to our service users that are in recovery or just leaving hospital, as well as those with recurring issues.

MEDICATION MANAGEMENT

We realise it can be difficult to keep on top of your medication when you have multiple prescriptions. Our carers have charts that help to manage your medications.

If you or a loved one have been admitted to hospital without notice and require care as you're released, we can provide rapid care for you or your loved ones.

What our customers say

“ She explained to me about how she wouldn't do anything I didn't want or need, and how I was still to try and do as much as I could, she would just be my support in case I needed it, and that made me feel like I still had some independence ”

“ We have been amazed at how flexible the service has been, it allowed mum to feel in control and not 'taken over' as she was a very independent woman ”

“ The impact it's had has meant I get up in a morning, I do things in my day and I go to bed at night, all without a moan or groan! I feel I get courtesy and compassion from everyone that visits me! ”
