

We make  
finding great  
care workers  
so much easier.

We are a new kind of home care service helping connect you directly to skilled elderly care workers in the Manchester area. We're not a care agency, and don't charge like one.

"I got to choose who looked after my mother, and she loves her carer."

*Sarah P.  
(woman, age 50)*

# Here's what you can expect from Holm.

We use years of experience to make sure **only the very best carers are registered**. Every carer undergoes rigorous checks.

Not only do you pick your visiting carer but you pick when they visit. **We suit your needs, not an agency's.**

Buy at least **20% more care** than you would through an agency.

We believe a great carer is priceless. That's **why we're helping them earn more**, and don't charge agency rates.

We have years of experience within social care, and yet when we needed help from an agency ourselves, we realised why so many people feel frustrated. We understand the difficulties in finding the perfect carer. Holm is committed to improving private homecare for everyone. Whether you're buying care for yourself, a loved one, or providing care, we believe that you should be treated with care and respect. We are committed to making life better and more enjoyable.

"I couldn't wait for an agency. I wanted help as soon as possible. Holm really helped us. Thank you!"

*Peter S.  
(man, age 70)*

Founder Nik Seth has years of experience as a registered provider of care. He's committed his professional life to helping others and making health and social care better for everyone. Nik's also campaigned for better wages for personal carers, and believes they deserve much more than they are often paid.
