Enjoying retirement, the icare way

We believe that your home should be the most ideally suited environment for you. In retirement this often means a home that is equipped to make you feel safe and secure with the added benefit of having professional support around you to help in times of need.

Icare are leading care providers, with a decade of experience in caring for the older generation and we are committed to creating your ideal home. Unlike retirement complexes and sheltered housing our properties are purposely designed for people in their mature years. This means you can remain a home owner with the added bonus of having the highest level of care support on hand should it be needed.

Links View is a unique development of one and two bedroom apartments either for sale, shared ownership or for rental. Each of the 59 energy efficient homes benefit from:

- A lunchtime food experience allowing you to dine with neighbours and friends
- Access to an active and vibrant lifestyle
- Personalised care services, as and when required to suit your needs
- 24 hour duty person on hand to give you care and support
- An environment that is safe and secure with CCTV cameras around the facility
- Use of the library, fitness and well being suite, therapy experience and computer room

- A communal cinema room, hairdressing salon, shop, and access to hobbies and outdoor activities
- Numerous support features to counteract physical or cognitive limitations.

We like to think that we have thought of everything so that you do not have to.
