The apartments have been crafted for modern living, featuring thoughtfully designed interiors with the welcoming open plan layout as the focal point.

Exclusively for individuals aged over 55, these self-contained apartments are nestled within a comprehensive complex offering amenities such as an on-site hair salon, communal lounge and gardens, a laundry room, and a guest room.\*

\*Amenities are subject to change of use. Use of services may also be charged outside of rent and service charges.

Oxlip House offers apartments that are available for rent. There are also pre-owned properties available via the government-backed older persons shared ownership (OPSO) programme. Pre-owned properties are marketed by a local estate agent who are your first point of contact for any questions you may have. We advise all prospective customers that:

- Any original property warranties will have expired
- You should satisfy yourself with the condition of the property before proceeding to purchase
- You should view the property, arranging this through the local estate agent
- The property will become the responsibility of the owner upon completion.

# Buying a home at Oxlip House

Older Persons shared ownership (OPSO), available for those aged 55 or over, enables buyers to part buy/part rent a purpose-built home, whether because they're looking to downsize from their existing family home, or their current home isn't suitable for their needs anymore.

## What is Older Persons Shared Ownership?

This scheme works in a similar way to shared ownership, meaning that the purchaser buys the advertised share in a property and then pays a subsidised rent to bpha, the housing association that owns the scheme, on the remainder. If you purchase a 75% share there is no rent to pay. In the future, you can simply sell your share for its value at the time of sale (current market valuation required) or purchase further shares in your home (up to 75%).

## The main criteria for purchasing are as follows:

- Occupants must be aged 55 or over
- Your annual household income can be no more than £80,000
- You will need to be in the process of selling your existing property before being eligible to purchase a home at Oxlip House

There are three elements to the cost of Independent Living Plus shared ownership:

- The cost of buying your Independent Living Plus home
- The service charges associated with your home, for maintenance and communal facilities
- Your care and support costs – the amount you pay will vary depending on your situation. There is a requirement to pay for a minimum of four hours care a week.

# Costs explained

Our goal is to enable you to focus on enjoying the wonderful community at Oxlip House. By paying a service charge to cover the services and maintenance, we can efficiently manage the day-to-day operations of this Independent Living scheme, including the upkeep of gardens and communal areas.

All shared owners are responsible for an annual charge, paid monthly by Direct Debit.

Budgeted costs are presented annually. This is the cost of running Oxlip House, and these costs are divided between all customers. You will be sent an estimated charge for the year ahead by the end of February each year. As per the terms of your lease, we will then inform you of your actual charge for services within six months of the year end. Your September charge statement will detail the actual costs of managing and running your building. A credit or debit adjustment will be shown on your statement to tell you if we have over or under anticipated our charges.

We believe that this charge offers value for money and we consistently strive to maintain transparency and competitiveness in our pricing structure.

## Charges – what’s covered?

- Service charges – This covers the day-to-day running of the scheme and the various health and safety checks/testing and upkeep that needs to take place. This includes communal cleaning, fire safety, repairs, lift maintenance, electricity charges and also includes the personal electricity and catering costs.

\*The restaurant provides a two course hot meal at lunch times. Any new shared owners moving in will be expected to take up this service from completion and the charges will be added to their service charges.

- Estate charges – This covers grounds maintenance
- Reserve funds – This covers a few items which fall into sub categories:
  - Cyclical redecoration, such as communal painting/decorating
  - Major repairs, such as roof repair/replacement, replacement of lifts and the door entry phone system
  - Furniture replacement for the communal areas
  - Road repairs

- Buildings insurance – Living at Oxlip House you will fall under bpha’s shared ownership/leasehold buildings insurance policy. The amount recharged to you is based on your own individual sum insured value, plus premium tax
- Management fee – The management charge is the bpha fee for the provision of management services at Oxlip House, including staff time, processing and administration.

This is not an exhaustive list and a full breakdown can be provided on request.

## Core Care Charge

The core care charge goes directly to The Orders of St John (OSJCT) and helps to ensure that the care team are available on a 24 hour basis in case of an emergency.

## Tailored Care Charge

A care plan is completed prior to moving into Oxlip House with a member of OSJCT staff. Together you will determine the level of care that you need. This is monitored regularly and can increase over time to suit your needs. This offers a level of reassurance in knowing that the support will be in place if needed.
