"I can't tell you how much of a difference it is to live here. I can watch the mothers and toddlers on their way to school in the morning from my window, socialise with my friends and neighbours in the restaurant and communal areas and just relax and watch the world go by. Everyone is so friendly and polite and nothing is ever a problem. I just love living here."

A key design feature of the scheme is the full height glass roofed atrium to introduce natural light and ventilation to enhance the environment of the building.
