HOOP - Housing Options for Older People

'HOOP' is an online questionnaire designed to help older people think about their home, how well it works for them, how to tackle any problems and whether also to consider moving home.

Work your way through the questionnaire, marking any concerns that you have with your current home, and at the end you will receive personalised suggestions, details of local services and recommendations for further reading.

If you need more support than the tool can offer, there is the option to submit your results to EAC and ask for further advice and/or information with the EAC FirstStop Support Service.
