Our Services

If you just need a new kitchen or bathroom and are unsure where to start or with whom, or whether you want someone to manage a full refurbishment, we can help. We're not contractors, and we're not tied to any individual contractors. We are experienced project managers in refurbishment, new build and home adaptations works, and can help ensure you get the results you want, without you having to shoulder the stress and hassle of sourcing, dealing with and managing multiple contractors, suppliers and service providers.

We can organise **removals** and re-location to your new home, to include any follow-up clearance works from your old home or garden as needed.

We can **project manage** all improvements works at your new home, including;

New **kitchen installations**, working with leading brands, ensuring everything is designed specifically to meet your individual needs.

New **bathroom installations** and/or adaptations as may be required, working with leading names and installers of modern level access showers and bathrooms. (we are registered installers of Impey wet-room systems).

Contractor selection-we remove the fear and uncertainty by only working with reputable contractors who are also Trading Standards-approved, and work to our agreed customer service and operating standards.

Ensuring appropriate **contracts** and **insurances** are in place.

Decorating services, **carpeting** and **curtains/blinds** throughout, with everything to your individual choice and all from leading independent retailers.

Full management oversight on-site and approval of all works upon completion
