

Welcome to Acacia homecare

We have over 40 years' experience providing care and support to older people, adults with physical & learning disabilities and mental health conditions. Our care services range from an hour of personal care to live-in care, from companionship to specialised care. Our rates are affordable and remain the same for weekends and public holidays.

Our specialist care services include:

- Dementia Care
- Palliative and end of life care

We believe in more than just helping you get ready in the morning; you have a choice and we want to help you do the things that you want to do, whether it's a walk in the park, a trip to the shops or a get together with friends.

Personal care

When things in life become a challenge, we believe in removing the challenges instead of removing the familiarity of the home.

Whatever support an individual requires – dressing, administering medication, bathing or continence care – our personal care service is tailored to fit in with a time convenient with the individual.

Live-in care

A common misconception is that people who require a dedicated carer need to be moved into a care home. Why settle for a 'home from home' experience when you could simply stay within your own home?

Our live-in care service provides a dedicated care worker living with you in your home to assist during the day and be available for emergencies through the night, giving peace of mind to you and your family.

"Our vision is simple: we just want to be there to help you do the things that you want to do."
