

Charter House

Resource Centre & Sensory Room

Supporting elderly people or those who have dementia

Charter House have now extended
their services to include those living
with Dementia.

We provide a safe, welcoming and enriching environment for adults with special needs and disabilities, the elderly, and people of all ages with dementia. Charter House provide the opportunity to stay active and have social interaction as well as providing much needed rest-bite for the carers.

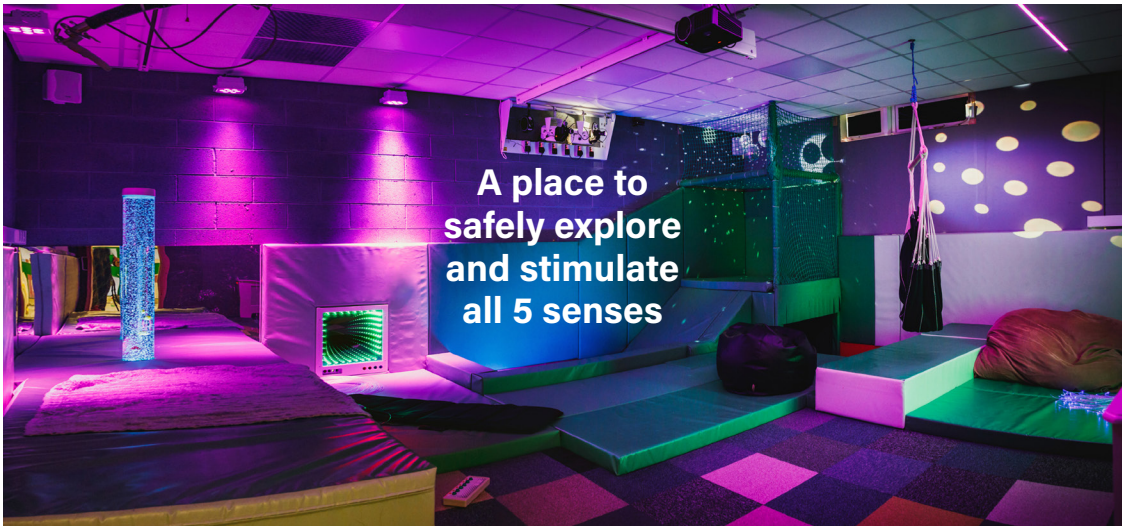

We have all the facilities and a very experienced team of staff for all daily care needs including bathing and toileting. We create stimulating activities for all to get involved in and we tailor the experience to suit each individual.

Multi Sensory Room

We have a newly installed state-of-the-art multi sensory room. This can be used to either stimulate all of the senses or as a calming tool. Sensory Rooms are one of the newest methods of therapy for memory care. It can help to relieve stress and pain as well as producing feelings of well-being. Time in a sensory room can improve a persons ability to focus and consequently improve concentration, memory and communication.

**A place to
safely explore
and stimulate
all 5 senses**

Once we get to know the needs of the individual we can tailor the room to suit their needs. Much of the equipment is provided by speciality suppliers but the overall design

and construction have come from the years of experience and knowledge of the team at Charter House. This is a Sensory Room built for real users in a practical environment.
