

About the Malmesbury Daisy

Helen

Why I became a Daisy

After a 25+ year career in IT I knew I wanted something more community based. I started the Malmesbury Daisy service in January 2017 and have been loving it since. You'll see me in my bright blue Daisy car all around Malmesbury and beyond.

A bit about me

I have 2 teenage girls and have lived locally for over 20 years. When I'm not working I enjoy being in the garden or meeting up with friends and have re-discovered fitness courtesy of PE with Joe (and I am determined to keep it going) despite my love of chocolate. I love travel and exploring new places, even better if it involves driving or map reading.

Best parts of being a Daisy

- Making a real difference to someone else's day and working to make their life easier.
- I don't think I have ever laughed or sung as much in any other role.
