**GN122 HOME  
CARE SERVICES**

## **Our Company**

GN122 Home Care Services is a leading provider of high-quality and professional care for adults and children in the comfort of their home. We provide a wide range of person-centered services, from elderly care to more complex specialist care. We cover long time and short-term needs, helping you get back on your feet after an illness or a hospital stay. Whether you or a loved one requires live-in, weekly, or daily care, we customize our visits and care plans to meet the specific needs of our clients.

You choose the level of care and support you need, for as long as you want it. We specialize in offering the best qualified, seasoned, and committed care staff so that you can lead a happy, fulfilling life.

## **Our Goal**

Our goal is to provide you with the best staff available in the industry, ensuring a seamless and efficient hiring experience for you. In addition, we offer affordable rates, flexible scheduling, and a supportive work environment.

## **Our Range of Services Include:**

- Domiciliary care
- Live in Care/companion
- Personal care
- Respite care
- Palliative care
- Dementia Care, Including Alzheimer's
- Home help/Housekeeping
- Reablement Care

## **Additional Services:**

- Doctors
- Nurses

## Live-in Care/Companion

Do you require a carer who will live in with you to provide all the support you need to live life independently? As part of our services, our staff can engage your loved one in activities they need to continue to live independently - such as dressing, bathing, taking medication, cooking meals, and providing physical therapy. This service is ideal for most people who enjoys privacy and independence. Below are some of the category of people we can offer this care option to:

- Older people
- People with physical disability
- People with hearing or eyesight difficulties
- People with terminal illness
- People with drug or alcohol issues
- People with dementia
- People with learning difficulties
- People with mental health issues

## Palliative Care

Do you require a care staff for a loved one who is nearing the end of life? Or you require a specialized medical care for someone living with a serious illness? We have experienced care staff who are well equipped to provide for all of your physical, emotional, psychological, social and other needs. They are always available to work at the homes of the patient, in a nursing home, hospital, or clinics.

## Personal Care

As part of our service offerings, we also provide assistance with personal care, such as dressing, bathing, and eating and taking medications. Our Care Professionals understand the importance of personal care for our clients, which is why they are discreet and take the time to build a close relationship with them to ensure an individualized and personalized service.

## RESPIRE CARE

Respite care is a planned or emergency temporary care provided to care givers of a child or adult. Should you require a carer to look after your loved one for a short period of time while your personal care giver is away, we have trained staff who are experienced to fit into the schedule of your carer. Our respite care givers can work in the homes of the patient, or in care homes.

## **DOMICILIARY CARE**

Domiciliary care is an aspect of care services usually done to provide support to individuals in their private homes. This kind of service usually varies and it depends on the client's preference. Our staff are trained to closely monitor such individuals who will require one to attend to them in their homes and to provide extra support with basic household tasks, personal care or any other activity that will aid them to live life independently.

For domiciliary care, our range of services includes those with learning disabilities, mental health problems, sensory impairment or physical disabilities.

## **HOME HELP/HOUSEKEEPING**

As a professional and friendly service, we assist older people with their day-to-day domestic tasks to prolong their independence such as cleaning, laundry, shopping, running errands, preparing light meals, etc. Should you require this service, we have skilled personnel to carry out those duties for you.

## **DEMENTIA CARE**

We are aware of the demands and challenges associated with providing care for a person with dementia. Despite this, with the correct support network, it may still be a meaningful and fulfilling experience.

As a component of our care service, we work to lessen the strain placed on dementia patients including patients with Alzheimer. Our Carers understand this and work hard to provide the care your loved one requires.

## **OTHER RECRUITMENT SERVICES WE OFFER:**

### **DOCTORS**

As part of our services, we connect healthcare providers with leading medical facilities nationwide. With our comprehensive screening process and personalized approach, we make sure that doctors and facilities are a good fit for each other.

### **NURSES**

For our nurses, there are a variety of roles we recruit for, such as Pediatrics, Intensive Care, Emergency, and Geriatric.

### **SUPPORT WORKERS**

The support workers we provide assist vulnerable people in living as independently as possible and support them in reaching their potential through both practical and emotional support. Additionally, they can provide customized support based on each individual's needs.
