

Doctor-led award-winning home care
you can trust...

Homecare when and how you want it

“Amazing service given to my neighbour and friend, despite very
challenging circumstances with COVID. I would highly recommend”

J Anders 2021

“Thank you so much for looking after my mother, the carers are lovely
and the office team are helpful. Thanks so much”

W Atkins 2021

About us:

Caremark (Aylesbury and Wycombe) is a doctor-led award-winning homecare company who have supported our young clients in our community for over 10 years. Our goal is to maintain client independence in their own homes and we do this through our healthcare expertise. Our dedicated and passionate team have been trained in our training suit and many of our staff have years' experience working in children's healthcare. COVID-19 has not stopped us supporting our local community, in fact it has made it even more important to reach out and support those who are vulnerable.

Care at home helps you towards a more independent life...

We want our young clients to live in their own home with their families either receiving a little extra help on the day-to-day tasks or receiving truly specialist care. In providing this care, there are incredible benefits to their health, happiness and general well-being, especially relieving the pressure of parents. Our young clients have more time to enjoy the really important parts of their life, and we empower them to do so.

Who we can support:

We support all ages of young clients with a wide range of conditions, and we pride ourselves on bespoke care to ensure all their needs are met, with care and compassion.

Empowering young people with:

- Learning disabilities
- Physical disabilities
- Physical health conditions
- Neurological conditions
- Neurodevelopmental conditions
- Mental health conditions

How does care at home work?

We create a dedicated homecare service around our young client and their family so they feel happy and supported throughout the day. We offer care calls from 30 minutes to full live-in care. We can help our young clients get ready for school or support them through the day whilst their parents are at work. We can support our young adults with technology, education and even support with finding employment opportunities.

How much does it cost?

The costs vary and we can support you with funding options too!

How we can help our young clients:

Physical Disability

Learning and
Developmet

Fun Activities and Engaging

Autism Care

Mobility Care

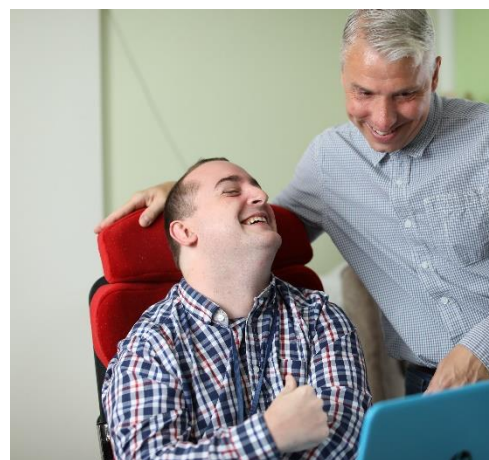

Personal Care

Medication Assistance

Days out

Support with Technology

Training:

Our Care and support workers are fully trained and DBS checked. They are all continually monitored and assessed throughout the year and their training is refreshed annually. Attention is given to matching the right support worker, with the right experience and personality to the client that they are supporting.

We have an expert panel of instructors and deliver high quality training all year round in our dedicated training suit.

Our standard training includes:

Personal Development
Duty of Care
Equality and Diversity
Work in a Person
Centred Way
Communication
Privacy and Dignity
Fluids and Nutrition

Basic Life Support
Health and Safety
Handling Information
Infection Prevention and
Control
Moving and Handling
Medication
Infection Control

Awareness of Mental
Health, Dementia and
Learning Disabilities
Safeguarding Adults and
children
First Aid
Fire Safety
Food Hygiene

Many of our carers then expand their knowledge in:

Children's Care
Mental Health Care

Epilepsy Care
Autism Care

Diabetes Care
AHDH care

Full Background checks

Specialist care skills

Fully experienced staff
