**As a local mobile optician, VisionVisit use the latest portable optical equipment to complete a thorough eye examination from the comfort of your own home!**

At VisionVisit we pride ourselves on providing the highest quality eye care to people that would normally struggle to get to their local opticians.

When one of our qualified Optometrists visits you, they will not only complete a FREE NHS sight test, but can also fit and supply you with a pair of spectacles of your choice.

We have a wide range of frames and lenses to choose from to suit every need and budget. Alternatively you can have new lenses put into your existing frames.

**To be entitled to a FREE NHS sight test at home you need to meet both of the following criteria:**

- You are unable to visit your local optician unaccompanied due to a physical or mental condition (even if it is temporary). AND...
- You normally receive a NHS sight test (for example if you are over 60)
