*'We spent a long time looking at companies, thankfully we found Lorraine and her fantastic team at Total Homecare. Their care of my mother has been outstanding; they have treated her with respect and dignity, and the result is I have a very happy, healthy 92 year old mother. The biggest compliment and reference I can give is in my mother's words: "They are not just carers they are like friends."*

*'Your care has been consistently attentive, considerate and dignified and you have always adapted to Mum and Dad's needs, which has made them feel confident in the care you provide and has definitely been a major factor in enabling them to remain together in their own home.'*
